okorieifeanyi071@gmail.com

PROFESSIONAL SUMMARY

Computer Science student and aspiring Front-End Developer with hands-on experience building responsive and interactive web applications using modern web technologies. Skilled in HTML, CSS, JavaScript, React, Tailwind CSS, Git and GitHub, with additional experience in API integration and full-stack project development. Strong problem-solving, teamwork and leadership abilities, with a passion for creating functional, user-friendly digital experiences and continuously improving technical skills.

EDUCATION

B.Sc. Computer Science
Vision University, Ogun State, Nigeria
Expected Graduation: 2027

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, TypeScript, Tailwind CSS, Vite, Responsive Web Design
Development Tools: Git, GitHub, VS Code, NPM
Backend & APIs: Node.js, REST APIs, FastAPI, API Integration
Database & Storage: PostgreSQL, Backblaze B2
Design: Canva, Adobe Photoshop, Adobe Illustrator, UI/UX Fundamentals

PROJECTS

UniApply NG — University Application Platform

• Developed a university application platform designed to streamline the application process for prospective students.
• Built responsive frontend interfaces using React, Vite and Tailwind CSS.
• Implemented user authentication and application-related workflows.
• Developed document upload and processing functionality.
• Integrated backend services using FastAPI and PostgreSQL.
• Implemented cloud-based document storage using Backblaze B2 and background processing with Celery.
• Managed source code and project development using Git and GitHub.

Personal Portfolio Website

• Designed and developed a personal portfolio website to showcase software development and creative design projects.
• Built responsive and interactive interfaces using modern frontend technologies.
• Focused on clean UI, responsive layouts and user-friendly navigation.

• Integrated a contact form for professional inquiries and structured the project for deployment.

Student Portal

• Developed a student portal concept featuring user authentication and login functionality.
• Created structured and responsive user interfaces for student-focused workflows.
• Implemented frontend logic using HTML, CSS and JavaScript.

Weather Application

• Built a weather application that retrieves and displays location-based weather information.
• Integrated an external weather API and dynamically rendered API responses on the frontend.
• Practiced asynchronous JavaScript, responsive design and API error handling.

FY Creative Studios Website

• Designed and developed a service-based website for FY Creative Studios.
• Created responsive layouts and interactive sections for presenting creative and digital services.
• Combined frontend development and graphic design skills to create a consistent brand experience.

JavaScript Games — Battleship & Rock Paper Scissors

• Developed interactive browser-based games using JavaScript, HTML and CSS.
• Implemented game logic, user interactions and dynamic DOM updates.
• Practiced JavaScript fundamentals including functions, conditions, event handling and state management.

LEADERSHIP & ACTIVITIES

Student Leadership & Sports Activities — Vision University

• Participated in student leadership and university activities.
• Assisted with planning and coordinating university sporting events and student activities.
• Worked collaboratively with students and officials to organize competitions and events.
• Developed teamwork, communication, organization and leadership skills through university responsibilities

.

SOFT SKILLS

Teamwork & Collaboration • Problem Solving • Communication • Leadership • Critical Thinking • Time Management • Adaptability •
Creativity • Attention to Detail • Continuous Learning

ADDITIONAL

Actively developing skills in modern frontend and full-stack web development. Experienced in combining software development with
graphic design and visual communication. Currently working toward professional certifications in relevant technology fields.
